

Dear SA National in Zimbabwe,

SA Club – Zimbabwe, in the last couple of years SA Nationals farming in Zimbabwe formed a body to represent their interests in Zimbabwe. This resulted in SA Nationals in SA and Zimbabwe contacting us for information for investment opportunities, schools, accommodation, visas, services –transport etc. to mention a few. We also realized that as SA Nationals in Zimbabwe we are not organized to market ourselves in any proper way. In a “club” form we can market ourselves and become part of the investment drive that is taking place in Zimbabwe, we can also provide a service to our members – assisting from work permits to applying for business licenses, use the SA Embassy to our benefit and stay in touch with SA through social events.

To get started we will need very basic information from you and your help to track down fellow SA Nationals in Zimbabwe. At this stage we have 540 SA Nationals on our data base and believe this could grow to 5 000. Once you register you will receive a news letter on the progress, at a later stage this “Club” will be formed officially and a committee will be elected.
