Ref: Traveller's Rebate Quantities

Date: 6 November 2018

Traveller's rebate is granted on goods up to the value of FOB USD200.00 or equivalent imported for **personal use** and the goods are **properly** declared.

Quantities for personal use may vary from one individual to the other and as such, the table below serves as an approved guide to maximum quantities allowed for all offices to adopt.

If the quantities imported by a traveler exceeds the stipulated maximum quantities shown in the table below then the particular item will be deemed commercial hence cannot be considered under rebate

For example:

If a traveler imports 7 shirts against the approved 4 shirts the whole consignment shall be deemed commercial hence full duty should be charged on the 7 shirts without allowing rebate on the 4.

Please note that the list is not exhaustive and we expect station managers to guide officers accordingly.
