

NOTICE TO PETROLEUM RETAIL OPERATORS

All petroleum retail operators are hereby notified that the Zimbabwe Energy Regulatory Authority (ZERA) has added the following conditions to the retail license:

- 1. No operator shall load fuel from an underground storage tank at a fuel retail site into a fuel road tanker**
- 2. No operator shall load fuel from an underground storage facility at a fuel retail site into a demountable fuel tank or container exceeding a total volume of 600 litres at a time.**

For small containers, operators should use the *“know your customer”* concept.

Any licensee found violating the above conditions risks prosecution and cancellation of retail license.
