Zimbabwe Herd Book

&

CC Sales

Welcomes you to the

53rd National Breed Sale

2021

*Wishing Buyers and Sellers a Successful
Day*

This year, Zimbabwe Herd Book celebrates the 53rd National Breed Sale.

Every year we commend the farmers (and Zimbabweans in general) for their tenacity and this year is no different. The long-term business we are in, requires passion, commitment and skills and once again I thank the Breeders & Buyers for their support. I am proud to call myself Zimbabwean.

This year, ZHB has welcomed new breeds and many new breeders. It is great to see the interest in the industry growing.

ZHB is a member of the Livestock Registration Federation (LRF), promoting the Stud Industry in Namibia, South Africa and Zimbabwe.

Last year we saw Tuli Cattle Society & one Simmental breeder lead the way with Estimated Breeding Values. This year I am proud to inform you that the Brahman breed has EBV's, which are linked to records from South African & Namibian Brahmans.

EBV's are the best measure of their genetic potential for a breeding trait. As buyers, you can utilise these tools in your selection process.

I take this opportunity to offer my sincere thanks to the ZHB Staff, CC Sales and many others involved in creating this remarkable Sale.

Dr Japie Jackson, who celebrates his 90th Birthday this year, has been inspecting the bulls and heifers for this Sale for the last 16 years and I take this opportunity to thank him for his humble, tireless contribution to the cattle industry of Zimbabwe.

John Crawford, Chairman

Zimbabwe Herd Book National Breed Sale 2020

By all accounts, the 52nd Annual National Breed Sale hosted by Zimbabwe Herd Book (ZHB) and held on 20th August 2020 was a tremendous success. An exceptional yarding of four Boer Goat bucks, 71 bulls and 105 heifers representing five beef breeds were on offer. Credit and deep appreciation

are extended to the long-standing inspectors John Crawford and Dr Japie Jackson who appraised each animal and ensured that only those that met the highest standards of their respective breeds were accepted for the Sale. The Covid-19 restrictions necessitated several changes, not least a postponement of the Sale by three weeks. Other significant changes included the requirement to close the event to the public, and only 50 registered buyers were allowed on site on the day.

For the first time, the Sale was both a simultaneous live and online event, accommodating buyers that could not attend the sale in person. In his opening address in the muted atmosphere, John Crawford, Chairman of ZHB, gave accolades to the breeders for their foresight and dedication to stud breeding, as a three-year old bull on offer is the result of planning, selection and mating that happened four years previously.

Once the buyers had assembled, the Sale got off to a strong start. However, the atmosphere was markedly different from previous years given the reduced number of people at the venue and the interruptions to the smooth flow of chanting by the auctioneers to assist online buyers who experienced connection problems.

The average price for the Boer Goat bucks was ZWL 64,375, representing a softening in real terms relative to previous years.

Only fifty-five bulls were sold (one was withdrawn due to lameness and 15 were not sold) and was the lowest number of bulls sold in recent years. However, the average bull price was ZWL 339,455, representing the highest USD-equivalent price attained since 2009 (see tables and figures below).

Demand for heifers was firm and 87 were sold for an average price of ZWL 173,011 (18 were not sold). Like the bulls, the USD-equivalent price paid for heifers was the highest since 2009.

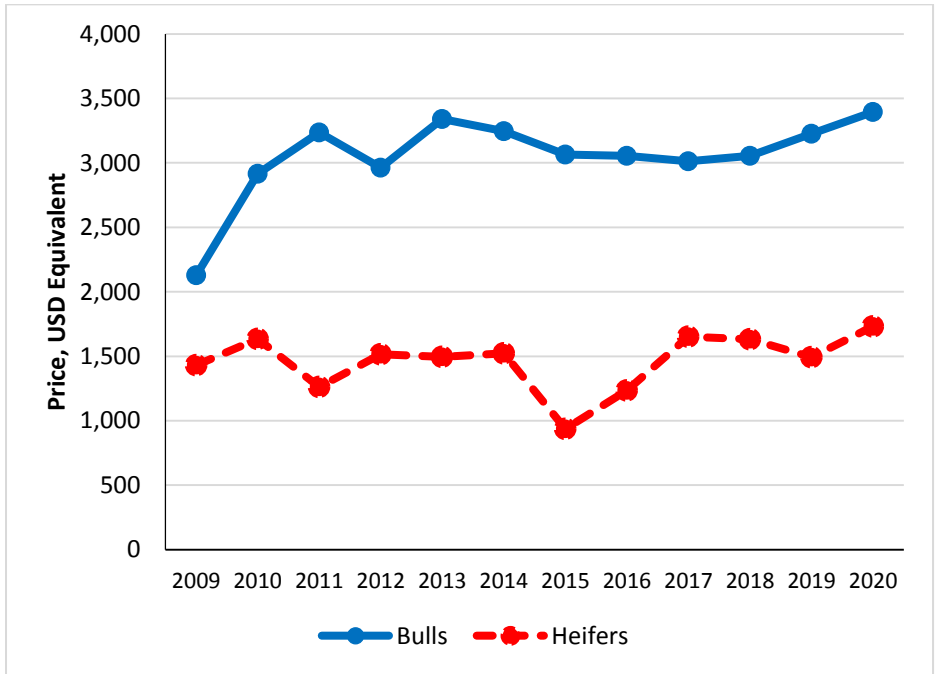

The top price paid was for a Ruvale Beefmaster bull, which sold for ZWL 650,000, followed by ZWL 600,000 for a Portelet Estates Brahman bull. The third highest price of ZWL 590,000 was paid for an OD Brahman bull.

Out of the five beef breeds, the two outstanding Simmental bulls bred by PJ Erasmus stud had the highest average (ZWL 437,500), followed by Beefmaster (ZWL 375,000) and Brahmans (ZWL 348,243). Bidding for the Beefmaster heifers was strong and the average price was ZWL 203,846, followed by Boran (ZWL 190,000) and Brahman (ZWL 166,972).

Breed	Bulls		Heifers	
	Number	Price	Number	Price
Beefmaster	5	375,000	13	203,846
Boran	8	260,625	2	190,000
Brahman	37	348,243	72	166,972
Simmental	2	437,500		
Tuli	3	316,667

<p> This is an exceptionally masculine bull, with a very good sheath, he has been top of the class since he was a calf. Performed extremely well on the Mukono program. His dam was a fertile cow, with a perfect udder, sold to another breeder. His Sire (CBV Poll Position) from Australia also comes from a fertile dam family, and is Homozygous Polled, this means all his progeny are Naturally Polled, 50% the progeny from his son will also be Naturally Polled. </p>

A very easy fleshing, medium framed bull showing tremendous thickness throughout, with extremely good hair quality. Bred from very fertile lines - his dam boasts an ICP of 377 days over 4 calves whilst his sire produced 140 calves in his first 2 seasons for John Crawford and Jan Kageler. His EBV's confirm his early maturity - this is the type of bull that will keep his condition well under veld conditions, and produce heavy early maturing calves.

This is an exceptionally well balanced, deep and beefy bull, with a very good sheath, he exhibits good growth. Performed extremely well, as one of the youngest bulls on the Mukono program. His dam was an exceptionally fertile cow, who unfortunately died this year. His Sire (CBV Poll Position) from Australia also comes from a fertile dam family, and is Homozygous Polled, this means all his progeny are Naturally Polled, 50% the progeny from his son will also be Naturally Polled

A unique outstanding herd SIRE. Incredible hindquaeters, a complete train of muscles and an outstanding top line, excellent underline, with a broad head-carriage. He exhibits dominance traits of masculinity, thunderous intimidating body, carried around by well balanced structural sound sturdy legs. Tops in all categories compared to his contemporary group. If LBB had ever produced quality in James Bond (16-0007LB), then, 18-0007LB is the cherry on the top. He is truly James Bond The 2nd.

<p>Luipaardsvlei Pollsmoor 18/60 ZF is a red bull with an impressive scrotal circumference. He has been semen tested, with a very tidy sheath. He is sired by Luipaardsvlei Burger 14/27 ZF - a very active in herd stud bull now working for Camen Brahmans, and a son of Masbra 18. Pollsmoor's dam is a daughter of Luipaardsvlei Dallas 01/44 ZF ET (Passport 777 son), calving 5/18 20/19 and in calf, due to calve down shortly.</p>

Luipaardsvlei Jompembe is a light brown bull, showing potential for BEEF production. Heavily boned and semen tested. His sire, Luipaardsvlei Chevvie, is a Masbra 30 son, and his dam is a Jumbo daughter and Tinokura granddaughter - this is fertility and beef all in one. His dam, Luipaardsvlei Mischief, has calved 6/18 9/20 and is in calf.
