# The 2022 Citizens' Budget

Theme: "Reinforcing Sustainable Economic Recovery and Resilience."

The 2022 Budget seeks to implement the NDS1 as we advance towards Vision 2030

## THE ECONOMY

### The Economy in 2021

- Economy estimated to recover by 7.8% in 2021 from a contraction of 5.3% in 2020.
- Industry capacity utilization expected to reach 65% by end of 2021 from 47% in 2020.
- Increased output in agriculture on account of remarkable performance for all crops.
- Relative economic stability as shown by the decline in annual inflation as measured by CPI to 54% in October 2021 from 837.5% in July 2020.
- Improved access to foreign currency through the RBZ Auction System.
- Firm international mineral prices with a current account surplus of US\$684.4 million in the 1<sup>st</sup> 9 months of 2021.
- Stable financial sector.

### How does our performance compare to others?

	2020 Est	2021 Proj	2022 Proj
<b>World</b>	<b>-3.2</b>	<b>5.9</b>	<b>4.9</b>

Here are the priority areas that the 2022 National Budget will focus on in line with the National Development Strategy 1 (NDS1).

## DEALING WITH THE COVID 19 PANDEMIC

### Citizens' good health is Government's priority

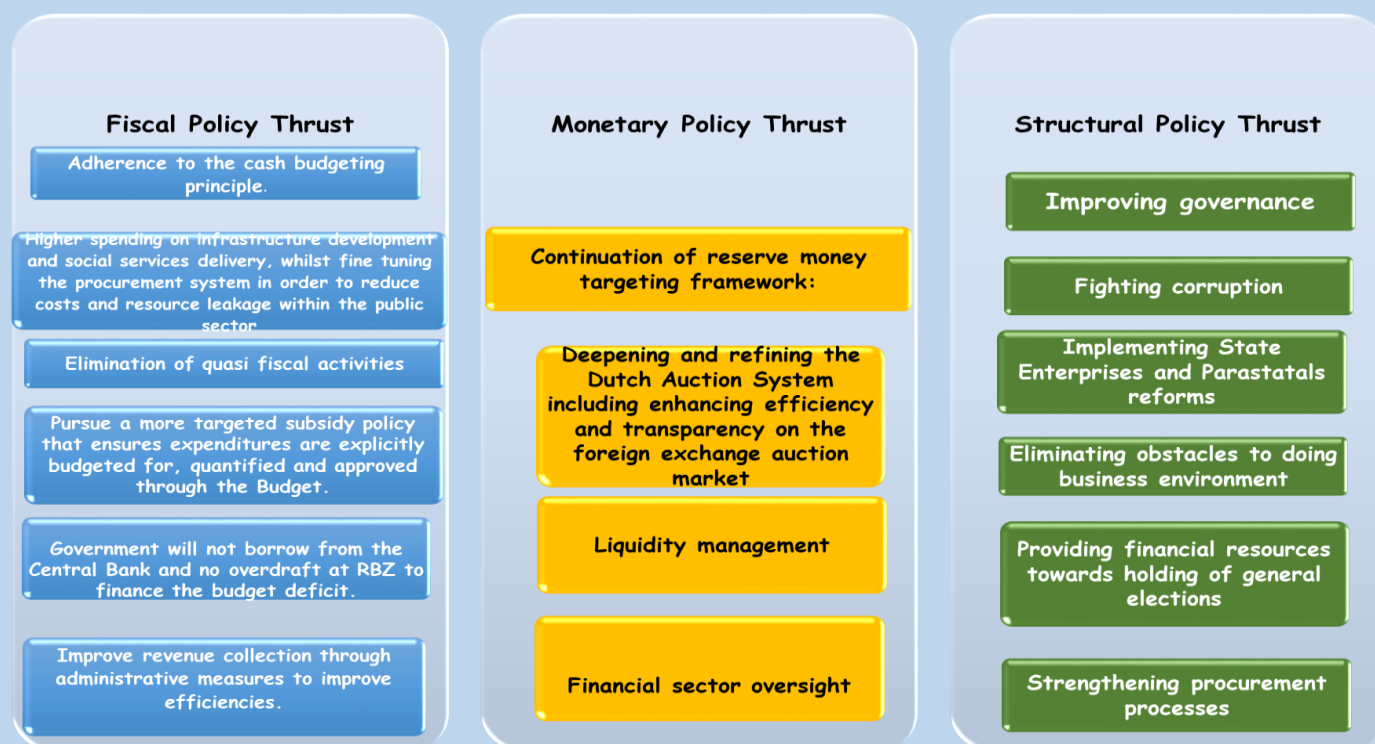

- Government has procured 17 million COVID 19 vaccines and 17 million syringes. Out of this, 5 million doses are yet to be delivered. In addition, 3 million doses of vaccines have been donated, of which 2 million have already been delivered.
- As at 16 November 2021, approximately 3.5 million first doses had been administered, with 2.7 million people having been fully vaccinated.
- As at September 2021, Government had spent a total of ZWL\$25.3 billion for health care.
- Development Partners have contributed US\$150 million in the fight against the pandemic.
- Government expects that the targeted national herd immunity of 10 million people is achievable.

#### Vaccination by Province

Province	Target (18yrs+)	Vaccination Dose	1 <sup>st</sup> Coverage (%)	Vaccination Dose	2 <sup>nd</sup> Coverage (%)

## 2022 MACRO-FISCAL FRAMEWORK

### Key Policies in support of the Macro-fiscal Framework

### What are the main sources of growth and key assumptions?

	GDP Growth	+ 5.5%	
	Agriculture	+ 5.1%	<ul style="list-style-type: none"> <li>✓ Normal to above normal rainfall expected</li> <li>✓ Expanded irrigation programme</li> <li>✓ Timely provision of inputs</li> </ul>
	Mining	+ 8.0%	<ul style="list-style-type: none"> <li>✓ Global economic recovery expected to sustain favourable international mineral prices</li> <li>✓ Higher gold and diamond output expected.</li> <li>✓ Improved export environment</li> </ul>
	Manufacturing	+ 5.5%	<ul style="list-style-type: none"> <li>✓ Macroeconomic stability.</li> <li>✓ Improved access to foreign currency from the RBZ foreign exchange market.</li> <li>✓ Higher consumer demand.</li> </ul>
	Construction	+ 17.4%	<ul style="list-style-type: none"> <li>✓ Infrastructure development</li> <li>✓ Increased housing development by Citizens.</li> </ul>
	Accommodation and Food services	+ 18.8%	<ul style="list-style-type: none"> <li>✓ Relaxation of travel restrictions</li> <li>✓ Increased vaccination rates</li> <li>✓ Improvement in domestic tourism.</li> </ul>

## Key Economic Indicators:2022

GDP Growth (%)	5.5
Per Capita Income (US\$)	1 306.30
Inflation (end period, %)	15.5
Revenue (ZWL\$ Million)	850 770.66
Expenditures (ZWL\$ Million)	927 268.00
• o/w Capital Development Budget (ZWL\$ Million)	251 161.00
Budget Balance (% of GDP)	1.5
Gap/ Deficit Financing (ZWL\$ Million)	76 497.34

% of GDP	61.0	27.7	22.3	53.3	65.9

## Income and Expenses

The management of Government income and expenses is anchored on the need to maintain macro-fiscal stability and containing the Budget deficit in line with the NDS1 and BSP targets of below 3% of GDP.

### Where is Government income coming from?

Government spending depends on how much income (revenue), particularly taxes is paid by citizens and companies. In 2022, the largest share of income is coming from taxes (ZWL\$809 billion) with non-tax revenue contributing (ZWL\$41 billion). Here are the various categories of our income:

The three main sources of Government income are value-added taxes, corporate tax and personal income tax.

The breakdown of income by source is as shown here.

- Personal income tax (ZWL\$ 157 billion) is a direct tax on income of individuals.
- Corporate tax (ZWL\$ 193 billion) is a direct tax on income (profit) of companies.
- Value-added tax (ZWL\$ 201 billion) is a tax on consumption of goods and services.
- Customs duties (ZWL\$47 billion) is a tax imposed on imported goods.
- Excise duty (ZWL\$78 billion) is a tax levied on the consumption of manufactured goods such as fuel, alcohol, tobacco, second-hand vehicle and airtime.
- Other direct taxes (ZWL\$49 billion) are composed of royalties from mining, tax on domestic dividend and interest, capital gains, as well as tobacco and vehicle carbon tax.
- Other indirect taxes (ZWL\$83 billion) are other taxes on consumption (notably Intermediated Money Transfer Tax (IMTT)).

## Are we getting something from our Partners?

Sector	2021 Estimates			2022 Projection
	Jan to Sept 2021 Actual	2021 Q4 Projection	Total 2021 Estimates	
	US\$	US\$	US\$	US\$

<b>Total</b>	<b>647,801,200</b>	<b>202,360,199</b>	<b>850,161,399</b>	<b>761,541,860</b>

## Take a look at the new measures that bring more money to the national purse

Targeted area	Proposed Measure
Support to local industry	Levy of 5% on the value of imported dairy products.
Promote healthy lifestyle	Increase excise duty on cigarettes from 20% + US\$5.00/1000 cigarettes to 25% + US\$5.00/1000 and a flat rate of excise duty on energy drinks at a rate of US\$0.05/litre to support cancer, diabetes and hypertension patients.
Ploughing back to consumers	Redirect 20% of surplus funds accumulated in the Motor Vehicle Insurance Pool to the Consolidated Revenue Fund for assistance to victims of accidents.

....but you will also get breathing space in paying taxes to Government. Here is how...

Targeted Area	Proposed Measure
<p><b>Reducing cost of doing business</b></p>	<p>Duty free importation of the capital equipment worth at least US\$10000 for incorporated companies.</p>
	<p>Extend duty suspension on minimum quantities of milk powder.</p>
	<p>Extend suspension of duty on the motor vehicles imported by the Safari and Tour Operators for a further 2 years.</p>
<p><b>Relief to tax payers</b></p>	<p>Increase tax-free threshold from ZWL 10 000 to ZWL 25 000 and also adjust the tax bands to end at ZWL 500 000, above which a marginal tax rate of 40% will apply.</p>
	<p>Increase local currency tax-free bonus threshold from ZWL 25 000 to ZWL 100 000 and the foreign currency tax-free bonus threshold from US\$ 320 to US\$ 700.</p>
	<p>Review non-taxable portion of the local currency tax-free threshold from the greater of ZWL 50 000 or 1/3 of the retrenchment package, whichever is higher, up to a maximum of ZWL 240 000, to the greater of ZWL 400 000 or 1/3 of the retrenchment package, whichever is greater, up to a maximum of ZWL 2 million, for income earned in local currency.</p>
<p><b>Support to vulnerable citizens</b></p>	<p>Extend the income tax exemption to allowances paid to councillors appointed in terms of the Rural District Councils Act.</p>
<p><b>Support to tourism industry</b></p>	<p>Introduce a tax credit of US\$50 or local currency equivalent per additional employee recruited per month for corporates that employ physically challenged persons up to a maximum of US\$2 250 per year.</p>
<p><b>Support to tourism industry</b></p>	<p>Extend the VAT exemption on accommodation and visitor services consumed by domestic tourists by a further 12 months.</p>

## How Government income is used for public expenses

Government spends its income on the following:

Here is detail on each one of the expenses.

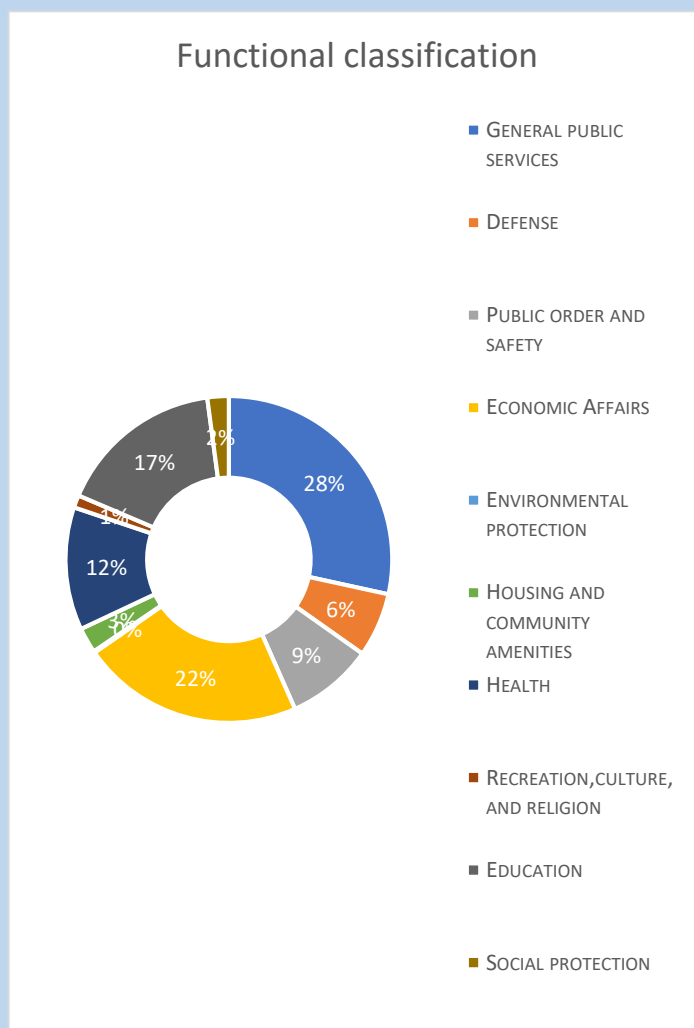

- **Salaries of employees** (ZWL\$ 281 billion in 2022) refers to the wage bill of public servants, or example health workers, teachers and security forces, including allowances, social security and benefits in kind.
- **Goods and services** (ZWL\$ 172 billion) paying service providers of the public sector (for example energy bills and fuel for the functioning of administration) and for delivering services to the public (for example vaccines).
- **Interest** (ZWL\$14 billion) are payments to service external and domestic debt.
- **Pension** (ZWL\$ 59 billion) are paid to former civil servants after they retire.
- **Devolution transfers** (ZWL\$ 43 billion) are inter-governmental transfers from central government to provincial councils and local authorities to help develop local infrastructure.
- **Subsidies** (ZWL\$ 46 billion) are payments made by government on behalf of vulnerable citizens to reduce the cost of specific goods and services.
- **Social benefits** (ZWL\$ 62 billion) are support to vulnerable groups such as labour-constrained households, children, elderly persons and people with disabilities, through cash or in-kind transfers.

- **Capital expenditures** (ZWL\$ 251 billion), also called net acquisition of financial assets, are expenditures for infrastructure projects such as roads, schools, hospitals, electricity plants or dams to improve productivity and public services.

In terms of which areas the 2022 Budget is supporting, here is a snapshot.

NDS1 Priority Area	2022 Allocation (ZWL\$ Billion)	Share of Total
Image building, International Engagement and Re-engagement	17	1.8%
Health and wellbeing	118	12.2%
Governance	375	38.7%
Housing Delivery	27	2.8%
Economic Growth and Stability	87	9.0%
Food and Nutrition Security	60	6.2%
Moving the economy up the value chain and structural transformation	5	0.5%
Social Protection	21	2.2%
Human Capital Development and Innovation	147	15.2%
Digital Economy	3	0.3%
Environmental Protection, Climate Resilience and Natural Resource Management	4	0.4%
Devolution	42	4.3%
Youth, Sport and Culture	6	0.6%
Infrastructure and Utilities	56	5.8%

## How the budget is allocated to the different Ministries and development agencies?

In ZWL\$ Millions	2021 budget	2022 proposed estimates	% of expenditure	2023 indicative estimates	2024 indicative estimates

## What is the difference between revenue and expenditure (Budget Balance)?

Projected revenue is not sufficient to cover all budget expenditures in the context of NDS1 implementation, as well as debt repayments and acquisition of financial assets (government participation in shareholding).

Therefore, revenue is complemented by borrowing. However, the budget deficit (the difference between revenue and expenditure) is limited to only 1.5% of GDP in 2022 and under 2% of GDP in the medium-term, in line with NDS1 targets.

### Budget Deficit (in ZWL\$ Billion)

## How is the budget deficit is being financed?

With budget deficit (ZWL\$ 76 billion), debt repayments (ZWL\$ 24 billion for domestic debt and around ZWL\$6 billion for external debt) and acquisition of financial assets (\$41 billion), total financing requirements are ZWL\$147 billion in 2022.

The main sources of borrowing in 2022 are the following ones:

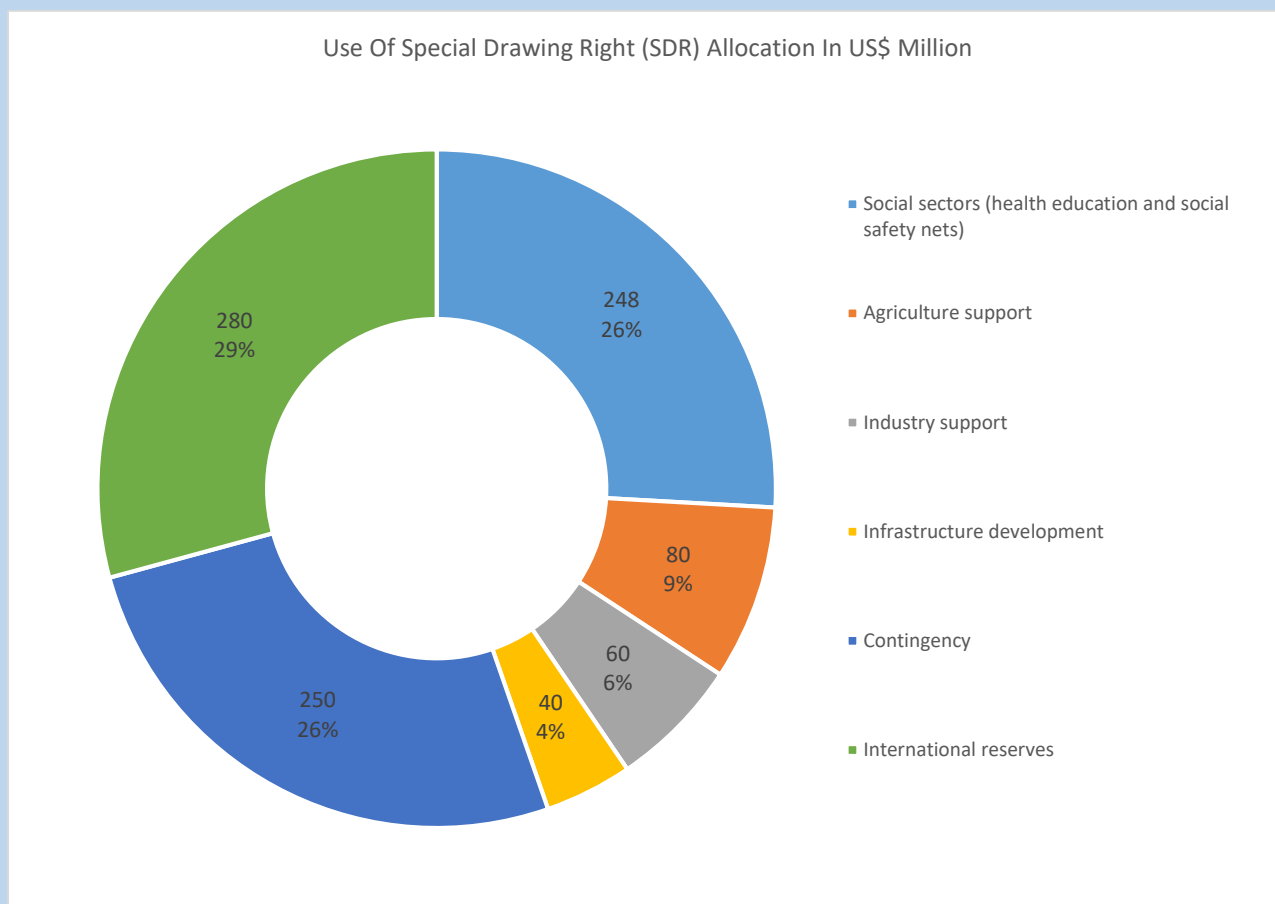

- **Treasury bills** (ZWL\$45 billion) are short-term domestic borrowing from financial institutions
- **Treasury bonds** (ZWL\$19 billion) are long-term domestic borrowing

- **Government deposits** (ZWL\$36 million)
- **Use of SDR allocation**

Government was allocated SDR677.4 million (US\$958 million equivalent) from the International Monetary Fund (IMF) under the general allocation.

The SDRs will be used to build international reserves, contingency fund to face negative shocks and budget expenditures to support investments in social sectors, productive sectors and infrastructure.

This is how the SDR Allocation will be used.

- In terms of re-engagement and renewed access to external borrowing, an arrears clearance debt relief and restructuring strategy has been adopted, exploring various debt relief options (Highly indebted poor country initiative, arrears clearance to international and bilateral clearance).

## How the 2022 Budget addresses Citizens' concerns related to development and economic growth

### Agriculture

- Continuation of crop and livestock input scheme, ZWL\$18 billion for Pfumfudza/Intwasa program supporting 540 000 households with 5 kg of sorghum seed and 260 000 households with 2 kg of millet seed
- ZWL\$6 billion for irrigation, covering more than 27 000 Ha
- Creation of an horticulture export revolving fund, with USD\$20 million budget allocation
- ZWL\$3.8 billion for agricultural research, ZWL\$3.1 billion for animal disease prevention, ZWL\$1.5 billion for agricultural engineering and mechanization, and almost ZWL\$1 billion for advisory and extension services
- ZWL\$2.5 billion for interim compensation to former farm owners

### Mining

- Amendment to the Mines and Minerals Act in line with international best practices
- Opening of closed mines and ZWL\$5 million for mining exploration
- US\$10 million of the SDR to support small scale and artisanal minors for the Bubi gold service centre

### Industry

- ZWL\$2.3 billion for capacitation of the industrial development corporation
- Development of innovation hubs in educational institutions
- Resuscitation of Ziscosteel (steel industry)
- Recapitalization of the industry, particularly agriculture and mineral processing

### Tourism

- Establishment of the tourism revolving fund
- Promotion of tourism through marketing and aviation programmes

### Job creation for youth and women

- Extension of the Youth Employment Tax Exemption (YETI)
- ZWL\$1 billion for capitalisation of the National Venture Capital Fund to finance projects of young entrepreneurs
- Capitalisation of empowerment institutions, notably Women development fund, Women's microfinance bank, empower bank and Community Development Fund

### Sport, arts and recreation

- ZWL\$920 million for rehabilitation of sport, arts, and recreation facilities, taking into account people with disabilities, and creation of an art fund with ZWL\$100 million initial capital

## How the 2022 Budget addresses Citizens' concerns relating to infrastructure development?

- ZWL\$22.4 billion for dam construction, notably Gwayi-Shangani, Chivhu, Kunzvi, Bindura, Dande and Semwa dams
- ZWL\$2.1 billion for water in local authorities and ZWL\$1.9 billion for rural water, sanitation and hygiene

- Completion of the first unit of Hwange 7&8 power plant

	Fiscal Risk	Mitigation Measures
<b>Macroeconomic Risks</b>		
	<b>Repeated waves of COVID 19</b>	Rapid and comprehensive vaccination roll out
	<b>Floods</b>	<ul style="list-style-type: none"> <li>• Early distribution of key inputs in the short-term</li> <li>• Improve drainage system.</li> <li>• Rehabilitation of irrigation infrastructure in the medium-term</li> <li>• Capacitation of the Meteorological Department to improve early warning systems.</li> </ul>
	<b>Lower international mineral prices</b>	<ul style="list-style-type: none"> <li>• Expedite value addition of minerals locally.</li> <li>• Increase the export of processed commodities</li> </ul>
	<b>Power outages</b>	<ul style="list-style-type: none"> <li>• Review economic tariffs</li> <li>• Develop pre-paid meters to all entities.</li> <li>• New IPP projects, solar and other renewable energy.</li> </ul>
	<b>Monetary Risk:</b> higher inflation and exchange rate depreciation	<ul style="list-style-type: none"> <li>• Strict adherence to a transparent market-based exchange rate regime.</li> <li>• Provide credible inflation targets.</li> <li>• elimination of monetary financing of fiscal activities</li> </ul>
<b>Expenditure Risks</b>		
	<b>Wage Pressures</b>	<ul style="list-style-type: none"> <li>• Government is committed to ensuring a decent standard of living to public servants.</li> <li>• Requests to adequately take inflationary developments into account in wage negotiations.</li> </ul>
	<b>Spending Outside Budget</b>	<ul style="list-style-type: none"> <li>• Strictly refrain from unbudgeted activities</li> <li>• No borrowing from the Central Bank and no quasi-fiscal activities</li> </ul>

	<ul style="list-style-type: none"> <li>• <b>State-owned enterprises' liabilities</b></li> </ul>	<ul style="list-style-type: none"> <li>• Management and operational reforms</li> <li>• Strengthening fiscal risk management.</li> <li>• Privatisation and commercialisation of SOEs</li> </ul>
	<p><b>Revenue Risks</b></p> <p>Exchange rate gap</p> <p>Decline in tax compliance</p>	<ul style="list-style-type: none"> <li>• Exchange rate and inflation stability</li> <li>• This is addressed with a number of interventions to improve voluntary tax compliance, notably tax audit.</li> </ul>

## CONCLUSION

The 2022 budget is benefiting from a positive economic trajectory and lower inflation outlook, mindful of macro-fiscal risks.

In line with NDS1, the 2022 budget is contributing to macro-fiscal stability, building resilience, advancing economic growth and social protection, while strengthening governance.

The collaborative and consultative approach used on formulating this Budget has enabled Government to respond to citizens' expectations.
